

AIA Long Island Chapter proudly presents

Suzanne DiGeronimo FAIA— A Presentation on “What is Involved in Flood Mitigation”

A Presentation on the processes used by NYC City Planning in working with communities throughout the floodplain to identify zoning and land use strategies to reduce flood risks and support the city’s vitality and resiliency through long-term adaptive planning. These strategies are the same when applied to Long Island.

Suzanne DiGeronimo FAIA works with FEMA and HUD on Community Development Block Grants CDBG to mitigate flood waters effect on housing. She has prepared designs, drawings, specifications and received permits to elevate existing structures and/or build new over 400 houses in Brooklyn and Staten Island under this program.

This is a program that should not be missed.

Please join us for an informative and interesting program.
